Students encounter a variety of emotions in and outside the classroom: school, work, family life, relationships, peer pressure and social media. No wonder children are more stressed than ever! Got-Special KIDS has partnered with local schools to establish reset rooms. A safe place where students can go to reset, recharge & return to class.

“Students are exhibiting defiance at a new level. They have trouble listening, sitting still and doing what is asked of them. The behaviors can be distributive to the entire classroom. Our reset room provides us with an option to help the student instead of repeating discipline options.”

— Mr. Hammons, Principal

“The room has kept me out of a lot of trouble.”

— Logan
